EDUCATION

- **National School of Computer Science and Systems Analysis (ENSIAS) - Rabat, Morocco** 2023 - 2026
 - MEng in Software Engineering, Grade : 14.85/20 (CGPA : 2.97/4)
 - A leading Moroccan engineering school specializing in computer science and digital technologies, renowned for its rigorous training in software engineering, information systems, and emerging technologies.
- **Preparatory Classes for the Grandes Écoles (CPGE Al Qalam) - Agadir, Morocco** 2021 - 2023
 - Branch : PCSI-PSI (Physics and Engineering Sciences), Ranked 136/1,141 in the national exam (Top 12%)
 - Two-year intensive preparatory program after high school focused on mathematics, physics, and engineering sciences, preparing students for competitive engineering school entrance examinations in France and Morocco.

PROFESSIONAL EXPERIENCE

- **Software Engineer Intern (End-Of-Studies internship) | Inforisk** 02/2026 - 08/2026
Casablanca, Morocco
 - Developed a scoring solution supporting the assessment of the solvability of individuals and businesses through score calculation for profile analysis and business decision-making.
 - Designed and developed a configurable scoring engine as a calculation microservice, based on 40 business attributes and integrable with multiple system modules.
 - Developed frontend interfaces for managing and configuring scoring models.
 - Implemented individual score calculation processes to meet system requirements.
 - Technologies : [Spring Boot](#) · [Angular](#) · [Python](#) · [FastAPI](#) · [PostgreSQL](#) · [GitLab](#)
- **Software Engineer Intern | Norsys Afrique** 07/2025 - 08/2025
Agadir, Morocco
 - Developed a document management web application with users, projects, and role-based access control (RBAC).
 - Designed the backend using Spring Boot, PostgreSQL, and Flyway, and the frontend using React.js.
 - Integrated Ollama for automated document description generation and deployed a containerized FTP server with Docker for secure document storage.
 - Participated in code reviews and development within an Agile environment.
 - Technologies : [Scrum](#) · [Spring Boot](#) · [React.js](#) · [PostgreSQL](#) · [Docker](#) · [Flyway](#) · [Ollama](#) · [GitLab](#)
- **Data Analyst Intern | National Agency for Urban Renewal (ANRUR)** 07/2024 - 09/2024
Rabat, Morocco
 - Designed and developed a desktop application to automate quality control of deliverables.
 - Implemented mechanisms for detecting structural, logical, and cross-file anomalies in complex datasets.
 - Automated the generation of PDF/Excel reports to facilitate auditing and correction.
 - Technologies : [Python](#) · [Pandas](#) · [GeoPandas](#) · [Tkinter](#) · [SIG](#) · [Excel](#) · [GitHub](#)
- **Software Engineer Intern | Technocolabs Softwares** 07/2024 - 09/2024
Indore, India
 - Developed features for a web-based training management application.
 - Collaborated remotely with an international development team in a professional environment.
 - Technologies : [MERN Stack](#) (MongoDB, Express.js, React.js, Node.js) · [Redux.js](#) · [GitHub](#)

ACADEMIC PROJECTS

- **OurBusWay: Urban Transport Management System - Microservices Architecture** 10/2025 - 12/2025
Development of a microservices platform for comprehensive bus management
 - Developed a platform composed of 9 Spring Boot and React.js services, containerized and orchestrated with Docker Compose, with RabbitMQ and Consul integration.
 - Implemented PostgreSQL databases and automated the multi-repository workflow using Bash and GitHub Actions.
 - Technologies : [Spring Boot](#) · [React.js](#) · [RabbitMQ](#) · [Consul](#) · [PostgreSQL](#) · [GitHub Actions](#) · [Docker](#) · [AWS](#)
- **AWS 3-Tier Infrastructure Migration & DevSecOps Automation** 10/2025 - 12/2025
Migration from a single-instance architecture to a segmented, multi-AZ AWS infrastructure
 - Audited the PHP monolith for security, technical debt, and availability, and migrated it to an AWS 3-tier architecture.
 - Fully deployed the infrastructure using Terraform (VPC, subnets, ASG...) and implemented a secure CI/CD pipeline.
 - Technologies : [AWS](#) · [Terraform](#) · [Docker](#) · [GitHub Actions](#) · [SAST](#) · [DAST](#)

SKILLS

–**Software Development** : Java · Spring Boot · Python · FastAPI · JavaScript · React.js · Angular
–**Tools** : Git · Linux · Bash · Postman · Figma · Agile Methodology (Scrum)
–**Databases** : MySQL · PostgreSQL · Microsoft SQL Server · PL/SQL
–**DevOps & Cloud** : AWS · OCI · Docker · Terraform · Jenkins · GitHub Actions
–**Modeling & Design** : UML · Merise · BPMN

CERTIFICATIONS

–**IBM Artificial Intelligence Analyst** (March 2025)
–**Meta Front-End Developer** (September 2025)

LANGUAGES

–**Arabic** (Native)
–**French** (Fluent)
–**English** (Fluent)
